Below are the best recomennded methods of cleaning all Custom Crystal Boutique items

#### Chains

All gold vermeil and sterling silver chains should be cleaned with a polishing cloth

#### Earrings

All hooks that are made of 14K gold and sterling silver should be cleaned with polishing cloth  
All earring mountings should be cleaned with a soft dry cloth

#### Bracelets

All bracelets should be cleaned with a soft dry cloth

#### Pendants

All pendants should be cleaned with a soft dry cloth

#### Rings

All rings should be cleaned with a soft dry cloth

All stones except druzy's should be cleaned with a very light damp soft cloth  
Druzy's should be cleaned with a soft tooth brush and mild dish soap. Let druzy dry completely before storing.

Amethyst geodes and all other crystals should be cleaned with a very light damp soft cloth  
It is also recomennded to cleanse your crystals by putting them under moonlight during a full moon

Store all jewelry separartely away from sunlight, heat and moisture in a protective air-tight jewelry box or in a tarnish resistant pouch  
Do not storage in bathroom

Oxidation disappears with time. This is considered normal wear and tear and is not a defect.

#### A NOTE ABOUT DRUZY:

Druzy is a coating of fine crystals that form on a rock fracture surface and produce the appearance of sugar or glittering stardust, depending on the size of the crystals. It is a naturally occurring gemstone, and as such, each will vary in shape, size and color with beautiful natural imperfections. Even within one pair of earrings, no two stones are the same. Each is truly unique and one of a kind!
